Easy hearing in every soundscape

XTM hearing aids combine trusted technology with a robust but sleek design and an easy to use rechargeable battery.

Rechargeable and robust hearing aids

The XTM hearing aids offer a trusted and proven technology and ease of mind while wearing. They are dust and water resistant with an IP 68 rating for whatever may happen in your day. The built-in rechargeable lithium-ion battery makes replacing cumbersome batteries a thing of the past.

The flexibility and power for easy hearing

With additional features for a more pleasant hearing experience, XTM rechargeable hearing aids are your trusted companions throughout the day. When in a conversation the voice ranger enhances speech, the extended dynamic range minimizes distortion from your surroundings for a better sound quality. And for a better spatial awareness the sound locator imitates the properties of the human ear.

Universal Cable Charger

The Universal Cable Charger is the small and practical solution for charging the hearing aids. Just place the hearing aids in the chargers and the charge begins automatically. After approximately four hours the hearing aids are charged and the charger will stop to avoid overcharge of the hearing aids.
